Dear Robyn,

We received your letter concerning the restrictions KYUK has placed upon the use of the five video cassettes of the 1982 mask carving workshop.

We have no problem allowing your researchers to review and reference the tapes as you requested.

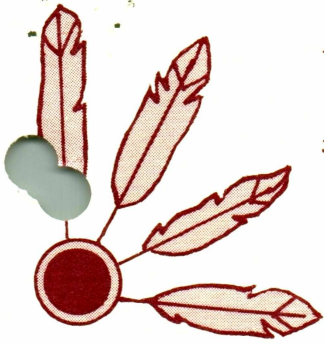

Consider this letter from us a release, allowing your researchers to utilize the films.

As you noted, this arrangement is not to be construed a release by KYUK of airing or duplication rights.

Sincerely,

Alexie Isaac
Assistant Production Manager
